# Business young gun strives to be her best

QUALITY Printer Cartridges director Lisa Rodi is a finalist in the 2011 WA Business Women's Award.

After completing a commerce degree with a double major in marketing and management and a minor in business law at UWA, Ms Rodi spotted a business opportunity while working as a marketing assistant.

She established Quality Printer Cartridges in 2008, at age 27, with her partner Jason Spark.

The Wangara business offers an Australia-wide service and is one of the largest re-manufacturing facilities in WA that collects empty printer, fax and photocopier cartridges and re-manufactures them with new components.

Ms Rodi is a finalist in the category for young businesswomen.

"I wasn't going to enter the awards, but I was kind of pushed by someone to enter them and it turns out it was a good idea," she said.

"I am genuinely honoured and flattered to be announced as a finalist."

"I strive to do the best I can and provide inspiration for my company, clients, team, family and friends and it is a really special feeling to be recognised for that."

Quality Printer Cartridges won the environmental award and marketing award last year in the Wanneroo Business Association Business Awards.

The winner will be announced today at a lunch at the Hyatt Regency.

Quality Printer Cartridges director Lisa Rodi says she is honoured to be a finalist in the 2011 WA Business Women's Award.
